PLATE TECTONICS REVIEW

Match the numbered plate tectonic features in the diagram below with the appropriate term from the column on the right. Write the correct letter into the space provided. (.5 pts. each)

1. _______ a. basalt magma
2. _______ b. mid ocean ridge
3. _______ c. sea floor spreading
4. _______ d. ocean-continent convergent boundary
5. _______ e. continental crust
6. _______ f. Benioff zone
7. _______ g. subducting ocean lithosphere
8. _______ h. divergent plate boundary
9. _______ i. shallow focus earthquakes
10. _______ j. volcanic island arc
11. _______ k. ocean-ocean convergent boundary
12. _______ l. continental volcanic arc
13. _______ m. upwelling mantle rock & heat
